

We have recently purchased an on-line reading resource called Reading Eggs to help support reading at Foxyards (Yr1-6).

Children can log in at school and at home, so make sure your child knows their password. Teachers can assign activities for homework too...

You can get involved and help to support your child to make the progress we expect, by encouraging them to access the system at home.

Children can also choose sections and earn eggs, enabling them to access even more fun games and activities.
